FIG 10

A hand-drawn diagram of a mobile phone screen displaying a text message form. The form is a table with two columns: labels on the left and values on the right. The labels are: Destination, Action, Time, Reply By, Customer Name, Company, Product, and Text Message. The values are: John Smith, Mary Jones, Alert, Now, Jan. 1, 2002; Noon, Charles Customer, ABC Corp, Model 75, and Customer needs 500 units by June 1. The form is enclosed in a rounded rectangle representing the phone's screen. Below the screen are several circles and a central oval shape, representing physical buttons. On the right side, there are labels 601 through 606 pointing to specific parts of the form: 601 points to the Destination field, 602 to the Action field, 603 to the Time field, 604 to the Reply By field, 605 to a bracket grouping Customer Name, Company, and Product, and 606 to the Text Message field. There are also some handwritten marks and lines around the form, including a double line under the Reply By field and a double line under the Text Message field.
